Id	Date	Description
1	16/03/2023	Initial drafting of the individual planning report.

Introduction

Included in this planning report is an itemized list of all tasks where I helped on its completion in order to fulfill the requirements of a specific deliverable. Additionally, a detailed budget is provided that outlines the total cost required to execute each of these tasks. The report also includes information on the number of hours spent, as well as a breakdown of personnel costs.

By utilizing this planning report, I can easily track my own progress towards achieving our objectives and identify any areas in which I may need to adjust my efforts. This document not only serves as a record of my accomplishments, but also provides valuable insights that can inform my decision-making and help us reach our goals more efficiently.

#55 Group TR16	01:05:46	21,92 €
Revision	00:01:27	0,48 €

Conclusions

After examining the time spent to each requirement, it becomes apparent that I dedicated a significant amount of time to fulfilling the testing requirement. The reason for this is the technical difficulties I encountered while generating the csv files. However, the remaining requirements were relatively simple to complete, provided that one understood how to approach them based on the instructions given in the discussion board.
