

Managerial requirements 6 Report

Deliverable 01

Group: C1.01.02

Repository: <https://github.com/JMGarCas/Acme-L3>

Student #1

ID: 77979757M
UVUS: enrcabmun
Name: Caballero Muñoz, Enrique
Roles: manager, developer, tester

Student #3

ID Number: 45559252R
UVUS: josgarcas4
Name: García Casillas, José Miguel
Roles: developer, tester

Student #2

ID Number: 29574288Z
UVUS: felgudgue
Name: Gudiel Güemes, Félix Ángel
Roles: developer, tester

Student #4

ID Number: 45996616C
UVUS: marchabar1
Name: Chasco Barry, Marco
Roles: developer, tester

1	15/02/2023	Initial drafting of the report.

Contents

When it came to setting up our development configuration, we faced significant challenges right from the start. One of the major issues we encountered was figuring out how to link a new repository created in GitHub to a copy of the Hello World starter project. We spent numerous hours trying to resolve this issue, but we eventually managed to overcome it.

Once we solved the repository connection problem, the rest of the configuration process was much smoother. We followed the steps outlined in “S04 - Getting started.pptx” which guided us through a variety of tasks such as changing the banner, logo, and favicon or changing the database script to correspond to our new project.

Overall, we successfully configured the project to function seamlessly for this task and any future tasks. The experience taught us the importance of thorough preparation and documentation, as well as the value of persistence when encountering obstacles. By persevering through these challenges, we were ultimately able to complete the project to a high standard.
